1st SYMPOSIUM

UPDATE IN DIALYSIS

The Department of Nephrology and Renal Transplantation at Hospital Clínic has seen fit to organize a dialysis update workshop.

Ever since our dialysis center (DIRAC-Manso) was put into operation two years ago, we, along with the "Fundació Catalunya La Pedrera", Fresenius and Amgen, had planned to organize an annual dialysis update workshop, where the main studies carried out at the new center would be presented, and scientific knowledge regarding dialysis could be exchanged.

Finally, the time has come for the first meeting, taking place in Barcelona on the 11th of April 2013.

We expect to have a successful and exciting meeting and we will be delighted to see you in Barcelona.
